## 3. Business online user roles definition

The three Business Online user roles are listed below in the order of their authority levels

### Administrators

These users have the highest level of access to all accounts and functions. They will manage the Business Online access of the other users e.g. Issue/reset passwords, limit users access to particular accounts and functions, register mobile phone numbers of other users.

### Authorisers

These users can authorise transactions through Business Online based on your Business Online authorisation rule.

**All Administrators are automatically Authorisers as well.**

### Creator/Viewers

These users can only create or view transactions but not authorise them. The users are created and managed by the Administrators once Business Online is established.

#### 4. Change Business Online authorisation rule

Complete this section if you want to **change** the existing Authorisation rule for Business Online.

- The Authorisation rule determines how many Authorisers need to approve transactions in Business Online.
- The rule needs to at least match the signing authority you already have on your accounts eg if you require two signatories to sign cheques your Authorisation rule also needs to be 2 to authorise.  
(Tip: We strongly recommend that you select at least a '2 to Authorise' rule as a means of increasing the security of your Business Online facility.)
- The same rule will be used for ALL accounts on this facility. If you have different signing rules for your accounts, please talk with us so we can find the right solution to enable access to this facility.

Please tick **ONE box** to tell us which Authorisation rule you want for this facility.

- '1 to Authorise'** This will allow any person who is an Authoriser to authorise online transactions by themselves.
- '2 to Authorise'** This will require any TWO people who are Authorisers to authorise online transactions together.
- '3 to Authorise'** This will require any THREE people who are Authorisers to authorise online transactions together.
- '1 to Authorise transfers, and 2 to Authorise payments'**  
- This will require any ONE person to authorise transfers between your accounts.  
It will require any two people who are Authorisers to authorise online transactions to third parties.
- 'View only'** - This will allow you to view information only, you will not be able to make any transactions online.

#### 5. Change Business Online administration rule

Complete this section if you want to **change** the existing Administration rule for Business Online.

Choose whether one or two Administrators are required to authorise administrative tasks like issuing or resetting passwords. We strongly recommend that if your Business Online Authorisation Rule is '2 to Authorise', your Administration rule should be 'Dual Administration'.

Two Administrators (Dual Administration) provides a higher level of internal security e.g. if an Authoriser needs their password reset, then two Administrators will need to approve the reset. (Tip: A Business Online arrangement with an Authorisation rule of '2 to Authorise' and Dual Administration has greater internal security than a Business Online arrangement with an Authorisation rule of '2 to Authorise' but only Single Administration.)

Please tick **ONE box** to tell us which Administration rule you want for this facility.

- Single Administration** (one Administrator is required to authorise administration tasks).
- Dual Administration** (two Administrators are required to authorise administration tasks).

#### 6. Change billing account information

Complete this section if you want to **change** the account currently used for Business Online fees and charges. This account must be a Westpac account and cannot be a foreign currency or credit card account.

For Business Online charge details visit [westpac.co.nz/Businessonline](http://westpac.co.nz/Businessonline) and select 'Help with Business Online Banking' and then 'Fees & charges'.
