Introduction to the underlying investment managers (in alphabetical order).

Ardevora Asset Management LLP.

Ardevora is an employee-owned investment management partnership established in 2010. The London-based firm manages global and UK equity portfolios with an objective of generating returns over the long term with an intense risk focus. The investment process is grounded in cognitive psychology and uses traditional investment techniques to identify situations where market participants may be demonstrating some kind of bias.

BlueBay Asset Management LLP.

BlueBay Asset Management LLP provides investment management services primarily to institutions and manages a combination of long-only and alternative strategies across the sub-asset classes of investment grade corporate debt, convertible bonds, high yield debt, distressed debt, loans and emerging market debt.

BT Funds Management (NZ) Limited.

BTNZ is the funds management arm of Westpac in New Zealand, and is wholly owned by Westpac Banking Corporation. The specialist investment team adopts a valuation-driven approach to managing fixed interest and cash, aiming to add value via multiple sources of active management: duration, yield curve positioning and sector and security selection.

Colchester Global Investors Limited.

Founded in 1999 and based in London, Colchester Global Investors is an independent investment management firm offering value oriented, global and international bond management services. Colchester's portfolios principally comprise sovereign bonds. Through the use of high quality smaller country bonds, Colchester gains the significant competitive advantage of diversity and added return potential.

Devon Funds Management Limited.

Devon is an independent investment management business that specialises in building investment portfolios that are comprised of companies listed on the New Zealand and Australian stock exchanges. Devon is based in Auckland, established in March 2010 and is wholly owned by its employees. Devon invests in companies that they consider have attractive valuations, favourable industry characteristics, a sustainable competitive advantage, strong management and governance, a clear strategic plan for growing shareholder wealth and a robust business model.

Harbour Asset Management Limited.

Harbour is a New Zealand based investment manager which manages funds for large government institutions, workplace savings schemes, charities, KiwiSaver schemes and retail investors through mezzanine platforms. Harbour offers both equity and fixed interest investment solutions for clients. Within Australasian equities, Harbour believes in a growth-orientated investment management approach to generate out-performance. Harbour employs a combination of quantitative, macro-economic and fundamental research analysis when selecting New Zealand and Australian equities for inclusion in portfolios.

K2 Advisors.

K2 provides integrated hedge fund product solutions to hundreds of sophisticated institutional and high net worth investors across the globe, including corporations, large public and union pension funds, insurance companies, foundations, and endowments. K2 executes a disciplined and rigorous manager selection process that seeks to identify "best-in-class" managers for each of the alternative strategies in which the firm invests.

MFS International Australia Pty. Limited.

MFS International Australia Pty. Ltd. (MFS Australia) is an indirect subsidiary of MFS Investment Management (MFS). MFS was established as a partnership in Massachusetts in 1924 and is America's oldest mutual fund company. In 1932, MFS established an internal equity research department and proprietary research approach. MFS's investment philosophy is based upon active management – identifying inefficiencies in global markets and investing in high quality companies which have above average sustainable earnings growth and are trading at attractive valuations.
