

Westpac Premium Investment Funds

Enhanced Cash Fund

Fund Update for the quarter ended:

31 March 2023

This fund update was first made publicly available on 3 May 2023.

What is the purpose of this update?

This document tells you how the Enhanced Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. BT Funds Management (NZ) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Enhanced Cash Fund aims to provide stable returns over the short term by investing primarily in cash and cash equivalents. The fund invests in assets of a short term nature such as bank deposits, floating rate notes and money market securities.

Total value of the fund	\$ 1,787,093
The date the fund started	1 June 1997

What are the risks of investing?

Risk indicator for the Enhanced Cash Fund.¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 March 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	1.16%	2.26%
Annual return (after deductions for charges but before tax)	1.62%	3.21%
Market index annual return (reflects no deductions for charges and tax)	1.52%	3.26%

The market index return reflects the return for the Bloomberg NZBond Bank Bill Index.

Additional information about the market index is available in the Statement of Investment Policy and Objectives (SIPO) on the offer register at disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 complete years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2023.

Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Enhanced Cash Fund are charged fund charges. In the year to 31 March 2022, these were:

	% of net asset value
Total fund charges²	0.47%*
Which are made up of	
Total management and administration charges	0.47%
Including -	
Manager's basic fee	0.25%
Other management and administration charges	0.22%
Total performance-based fees	0.00%
Other charges	\$ amount per investor
Other Charges	\$0.00

*Following a decrease of the other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.35% of the fund's net asset value.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jason had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jason received a return after fund charges were deducted of \$226 (that is 2.26% of his initial \$10,000). Jason did not pay anything in other charges. This gives Jason a total return after tax of \$226 for the year.

What does the fund invest in?

Further information

You can also obtain this information, the PDS for the Westpac Premium Investment Funds, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

1. The risk indicator for the fund is calculated based on the volatility of returns over the past five years, which may not be a full investment cycle. In some cases the risk indicator might differ if calculated using a longer timeframe. We believe an average investment cycle is generally considered to be a period of between 7 to 10 years. If the period of returns data that a risk indicator is based on has had unusually low or high volatility the risk indicator presented in this fund update (or the PDS) may provide a less reliable indication of a fund's potential future volatility.
2. The amounts specified include GST, where applicable.
3. For further information on each of the asset classes refer to the PDS and the SIPO.
4. The top 10 investments have been calculated excluding cash and cash equivalents held for operational and hedging purposes.
